## President's Message

Dear Centro Ladies,

January 10, 2016 Dear Centro Ladies, 2017 is the year of the Fire Rooster, starting from January 28th, and ending on February 15th, 2018. Born with zodiac sign of Fire Rooster has the following characteristics trustworthy, with a strong sense of timekeeping and responsibility at work. Rotarians are not all Fire Rooster but the characteristics are manifested in the services and projects implemented not

only in our club but also with other clubs.

Last year, we engaged ourselves in the development of the 65 pupils with their parents in Pulong Sta. Cruz our Adopted Day Care Center by implementing projects in their community such as Nutrition Month Celebration, National Language Month, Family Day and Christmas Party. We sustained our community engagement in this site since RY 2012 during PP Joel Liza Pineda's term. We reached other clubs through sisterhood such as Rotary Club of Makati Olympia D3810 and Rotary Club of Nasusqbu. We attended Inductions to show support to other All Star Presidents such as Rotary Club of Naga 69th Induction Ceremonies, RC Metro Santa Rosa and South, RC Club of Batangas Midwest, Rotary Club of Sariaya, and RC Nuvali. We sustained annual projects such as Blood Letting Activity " Dugo Mo, Sagip Buhay Ko", and "My Fair Centro". We gained and sustained partners from the projects conducted such as Enchanted Kingdom, more Bazaaristas from My Fair Centro, Ayala Malls, Isuzu Philippines, the Local Government of Santa Rosa, DILG, City Health Office, Red Cross, Urban Youth Academy, Center for Social Concern and Action (COSCA) DLSU- Manila and Convergys We also supported Sustainable Developments Goals or Global Goals thru Coastal Clean Up and Mangrove Planting in Lian Batangas, our way in protecting biodiversity. We reported all of these through the presence of our District Governor Dindo Katigbak during the Gov.'s Visit. We are blessed that we still believe, trust, enjoy and respect one another. We embraced our individual differences. We understand our weaknesses and strengthen our skills and continuously develop our talent. The above mentioned signifies that we agree with RI President John Germ, "A person needs to work hard and do the best they can while always learning something new every step along the way". All these happened because we are one in our mission, Service Above Self " Rotary Serving Humanity "

This January may the forces of positivity be with us to face the upcoming challenges, Medical Mission with Canossians, District RYLA, active participation of Interactors and Rotaractors, Library Project, Spelling Bee, 3rd Cento Cup (Golf Tournament) and Buntis Wellness. Thank you everyone. I love you all. Happy New Year.

Yours in Rotary,

All Star President Evs Laranga

ROTARY INTERNATIONAL News & Updates

## **Teaching the teachers**

Realizing that getting children into schools isn't enough to solve illiteracy, Rotary shifts to mentoring and coaching teachers

On Carolyn Johnson's second visit to the central highlands of Guatemala, she met a first-grade teacher who made a shocking confession. Before taking part in the Guatemala Literacy Project, the teacher was convinced that her students could not learn to read.

"She said 'We were willing to go through the program because it was a day out of class and you gave us books and you provided us with a nice lunch, but we knew that you were crazy,' " says Johnson, a Rotarian who helped design the curriculum for the project and now serves as a technical adviser for the Guatemala Literacy Project.

That teacher and more than a hundred of her colleagues each received several in-classroom coaching sessions over eight months. They learned how to replace rote memorization drills and repetition of words on a blackboard with exercises that engage their students in critical thinking.

## ROTARY INTERNATIONAL News & Updates

"She went on to tell me excitedly how 45 of her 50 students were moving on to second grade because they had learned to read," Johnson says. "The program has made believers out of 90 percent of the teachers we have worked with. They are excited about being teachers again, and they go into their classrooms believing they can make a difference."

After decades of investing in literacy projects, experts have realized that simply getting children into the classroom — either by removing attendance barriers or providing supplies — is not enough. Before students can succeed, the quality of the teaching in that classroom needs to improve.

#### Learning outcomes over enrollment

Rotary projects like the Guatemala Literacy Project and Nepal Teacher Training Innovations (NTTI) in Nepal are leading the effort to advance childhood reading by empowering teachers to teach better.

Rotary, the United Nations, USAID, and other organizations are shifting their focus to helping teachers plan lessons that ensure students will actually learn. The entire effort is part of a larger goal to reduce extreme poverty, because knowing how to read and write increases a person's earning potential and ability to build a better life.

Quentin Wodon, a lead economist at the World Bank, has studied education projects both from a professional standpoint and as a member of the Rotary Club of Capitol Hill (Washington, DC), U.S.A. Wodon agrees that teachers are critical to any attempt to improve learning.

"The best way to enable children to learn is to think broadly about teacher policies," says Wodon. Training is one of eight key goals set by the World Bank, along with setting clear expectations for teachers, attracting the best candidates, matching teacher skills with student needs, having strong principals to lead teachers, monitoring, providing ongoing support, and motivating teachers to perform.

## Reflections

"In the pursuit of happiness, men most frequently turn to wealth; in it they hope to find enduring happiness. Some look for it in the possession of gold, King Midas' sad experience notwithstanding. They hoard it

beyond all possible needs.

Others expect to find it in the things which money can bring them: influence, power, business, and social prestige, the envy of those who are less opulent, and endless, interminable things....If we heed the guide posts and danger signals which seers have hung out for the benefit of

travelers on life's highway, we shall not look for happiness in the possession of money, nor in the possession of things which money will buy."

Paul P Harris

"There is nothing intangible about Rotary: It is reality itself. To give is to receive; to lose oneself is to find oneself; to be happy is to serve. These are old truths...for the individual...and the mass, whether application be in the exchange of goods, toil, knowledge, or love." — The Meaning of Rotary, THE ROTARIAN, November 1921

## JOHN F. GERM

PRESIDENT 2016-17 ROTARY CLUB OF CHATTANOOGA TENNESSEE, USA

As we enter 2017, we also enter the second year of the initiative known as the United Nations Sustainable Development Goals. These goals, usually referred to as the SDGs, pertain to a list of 17 areas where the people of the world can come together to address our most pressing economic, political, and social challenges. It is a hugely ambitious list, and it has to be. The ultimate aim of these goals is nothing less than peace, prosperity, security, and equality for all of humanity.

How do you even begin to tackle such a project? At Rotary, our answer is simple: one step at a time. These goals are nothing new for Rotary: They're already reflected in our areas of focus. We also understand that all of these 17 goals, just like our six areas of focus, are interrelated. You can't have good health without clean water. You can't have clean water without good sanitation. Good sanitation in turn helps keep children in school, which improves education, which improves economic prosperity and health. When you are talking about the advancement of an entire planet, no one indicator, no one goal, no one country, exists in isolation. To make real and lasting progress, we must all move forward together.

The idea of sustainability is key to the SDGs – and to our service in Rotary. Sustainability simply means making progress that will endure. It means not just digging a well, but being sure that a community can maintain it. It means not just running a health camp for a week, but training local health workers. It means empowering families and communities to take charge of their own futures by giving them the tools they need to succeed.

Sustainability has always been at the heart of our thinking in Rotary. We've been around for nearly 112 years and intend to be around for many more. We've already seen the difference our work has made: in health, in education, in water and sanitation, and of course in our efforts to end polio.

Polio eradication is the ultimate in sustainable service: a project that, once completed, will benefit the world forever. And those benefits will go far beyond the eradication of a single human disease. The estimated cost savings we will see once polio is eradicated are about \$1 billion per year. That is money that can be returned to public health budgets and directed to other pressing needs, carrying the good work of today forward for many healthier tomorrows.

## **Editorial**

#### **Travelling with family**

I look forward to our annual travels. My husband and son, as much as we can , try to free enough days from our busy schedules to travel before the year ends as there is something clearly magical about traveling as a family.

This year we went on a budget trip to Hawaii. Not exactly one of the places to visit on our bucket list but we chose to go there for so many reasons which I will not dare elaborate here as it will take up most of my writing space.

As we were on a budget, we simply took a 4-day pass for a hop-on hop-off trolley. No special tours. No big buses. No guides. Just us taking the trolley and deciding the itinerary by ourselves. There's just a lot of bonding time when there's just the three of us.

Though we plan ahead on where we were going, it is inevitable (in every trip, there is always something inevitable) that things don't go to plan. Like that day when we supposed to visit Pearl Harbor and we bought tickets in advance only to find out that they were closed on the day stated on our tickets because President Obama visited the place. Though they honored our tickets for some other day, schedules turned haywire as we've got tickets for other events, too.

But all's well that ends well. Need to give up some but gain some. The Philippines have a lot of good snorkeling sites but the first time the three of us went snorkeling together was in Hawaii. We were able to snorkel at Hanauma Bay, said to be one of the best snorkeling sites in the world. Truth to be told, it does not compare to Palawan where water is clear and fishes abound. But who cares, we're with family.
